Work Experience:

Backend Developer

Jan 2024 - April 2024

CareMate Health, Winnipeg, MB, Canada

- Designed, developed, and maintained RESTful APIs using Node.js and Express.js, enabling seamless handling of CRUD operations for efficient data management
- Integrated PostgreSQL database and AWS S3 for secure and scalable data storage, ensuring reliability and accessibility of critical application data
- Deployed RESTful API on AWS Elastic Beanstalk, leveraging AWS CloudWatch for monitoring and logging, resulting in improved efficiency, maintainability, and scalability of the application
- Automated user authentication and request validation processes by integrating API Gateway and Lambda functions, enhancing security and reducing manual overhead

Technical Skills:

Java, JavaScript, TypeScript, Python, C, C++, HTML/CSS, React.js, Next.js, Node.js, Express.js, GitHub, Git Actions, Docker, VS Code, Android Studio, MySQL, SQL Server, Tailwind CSS, AWS(Lambda, API Gateway, Elastic Beanstalk, CloudWatch)

Educations:

Bachelor of Science in Computer Science

Jan 2019 - May 2024

University of Manitoba, Winnipeg, MB, Canada

Diploma in Infocomm Technology

Jan 2017 - Jan 2018

PSB Academy, Singapore

Academic Projects:

Music Player Platform

- Implemented a music player platform using Vanilla JavaScript, HTML, and CSS
- Achieved core functionalities, including music playback, playlist management, and volume control
- Demonstrated expertise in front-end development, UI/UX design and team collaboration

Food Delivery Mobile App

- Implemented a food delivery app using Android Studio, Java and SQLite
- Achieved core functionalities, including user registration, login, and order placement
- Demonstrated expertise in mobile app development, UI/UX design, team collaboration, and agile project management

Real-time Chatting Web App

- Implemented a real-time chatting web app using React.js, .NET Core, SignalR and MongoDB
- Achieved core functionalities, including user registration, login, account management, and real-time chatting
- Integrated with GitHub Actions for CI/CD pipeline and Dockerized the application for deployment

Languages:

English (Intermediate), Mandarin Chinese (Fluent), Cantonese Chinese (Fluent)
